Installation Type	Interior
Installation Method	WET

Transform ordinary glass into a stylish, contemporary feature with our Small Lines Decorative Window Film. Featuring a refined 18mm horizontal striped pattern with alternating narrow frosted lines and clear sections, this decorative film offers an excellent balance of privacy, natural light, and modern design.

Ideal for offices, meeting rooms, glass partitions, and commercial spaces, the subtle striped pattern creates a professional appearance while helping to reduce direct visibility through glass.

Perfect for adding a sophisticated decorative finish without the expense of replacing existing glazing.

APPLICATION GUIDANCE

Professional installation: Apply internally to clean, correctly prepared glass using a suitable application solution.
Maintenance: use a soapy water solution and do not clean for at least a month. Performance and warranty depend on correct installation, surface condition and aftercare.
