

PRODUCT SPECIFICATION SHEET

Decorative Frosted Lines Range

Medium and large patterned frosted lines

Decorative horizontal line films for adding privacy and visual structure to clear glazing. The two grades differ in the width of their frosted bands and the clear spacing between them.

Medium Frosted Lines

18mm frosted bands separated by 6mm clear aspect bands.

Large Frosted Lines

44mm frosted bands separated by 10mm clear aspect bands.

At a glance

PET construction, 40 micron thickness, M1 fire rating, 5-year window-film warranty and internal installation.

Trade ordering

Supplied by the metre or as a full roll where options are available. A 3m minimum applies to per-metre orders.

Application

Ideal for office partitions, doors, meeting rooms and other glazed areas where a decorative privacy band is preferred to a fully frosted finish.

DECORATIVE WINDOW FILM

Medium Frosted Lines

Product overview

A decorative glazing film using 18mm frosted bands separated by 6mm clear aspect bands. It adds privacy and visual definition while retaining clear bands through the pattern.
